EXPERIENCE

Front-End Developer at **The Tork Inc.** since February 2024, specializing in building responsive, high-performance web applications with JavaScript, React, Next.js, and responsive design frameworks like Bootstrap, SCSS, and Tailwind CSS.

PROJECTS

- **LEARNING MANAGEMENT SYSTEM (LMS)**

I've nearly finished Uylab's LMS front end, creating a responsive UI with Next.js, SASS, and Bootstrap, ensuring smooth UX with real-time sync.

- **CUET WEB APP & JOB PORTAL**

I worked on the CUET official web app front end, focusing on responsive design and optimizing the user experience for the job portal.

[Live Demo](#)
- **LIFE MANAGEMENT APPLICATION**

I developed the frontend for a life management project, translating Figma designs into a responsive Next.js interface with Bootstrap and SASS, ensuring performance and pixel-perfect accuracy.
