SUMMARY

Frontend Developer with 1.5+ years building SEO-friendly, high-performance web applications using Next.js and TypeScript. Proven ability to collaborate with backend teams and designers to deliver responsive, user-centric interfaces. Experienced in agile environments, API integration, and maintaining code quality through reviews. Passionate about creating optimized experiences with modern frontend technologies.

WORK EXPERIENCE

Frontend Developer   **The Tork Inc.** | **Feb 2024 – Present**

- Engineered responsive and dynamic UI components from Figma designs using TypeScript, React, Next.js, Tailwind CSS, and SCSS, ensuring high-quality standards and UI consistency.
- Implemented complex, form-heavy workflows for an LMS using React Hook Form, and managed application state efficiently with Redux Toolkit and Context API.
- Developed a university management system with student/faculty dashboards and a job portal by integrating RESTful APIs and secure payment gateways.
- Used Git (GitHub/Bitbucket) for version control, managing feature branches, and collaborating through pull requests.
- Collaborated closely with backend developers to define and integrate APIs, ensuring seamless data flow with a focus on scalability and performance.

SKILLS AND TECHNOLOGY

Expertise	:	JavaScript (ES6+), TypeScript, React.js, Next.js, Redux Toolkit, Zustand, React Hook Form, Tailwind CSS, ShadCN, SASS, Bootstrap, Responsive Web Design, Git, GitHub, Bitbucket, RESTful APIs, Performance Optimization, SSR.
Familiar With	:	Node.js, Express.js, MongoDB, Vue.js, Firebase, JWT, NextAuth.js
Tools	:	VS Code, Vite, Vercel, Jira, Figma, Postman
Soft Skills	:	Collaborative Mindset, Problem-Solving, Teamwork, Time Management, Adaptability

PROJECTS

CUET Official Website – Next.js, Bootstrap, SCSS   **Live Site**

- Built the official university platform using Next.js with hybrid SSR/CSR rendering for optimal performance.
- Created a professional interface with Bootstrap and SCSS following institutional design standards.
- Implemented efficient data handling with **SWR hooks** for dynamic content management.
- Delivered a scalable solution supporting all university departments and administrative functions.

Learning Management System (LMS) – Next.js, Bootstrap, SCSS   **Live Site**

- Role-based access control (Student, Instructor) with custom dashboards.
- Multi-format courses (Live, In-person, Pre-recorded) with batch management.
- Responsive and performant UI with Next.js SSR, SCSS, and integrated RESTful APIs.

KireiBD E-commerce Platform – Next.js, TS, Bootstrap, SCSS   **Live Site**

- Next.js SSR frontend with responsive, SCSS-based UI, ensuring fast, maintainable, and mobile-first design.
- Dynamic product catalog and filters, promotional banners, and embedded chatbot (Kaira) for enhanced UX.
- Integrated secure checkout, contact forms, and app-store promotion, interfacing with backend APIs and aligning web to Android/iOS platform experiences.

EDUCATION

Bachelor of Arts │ Barguna Govt. College (Expected Graduation: 2025)
